WORLD BOOK DAY®

Reminder!
Thursday 5th March- World Book Day-
Please bring your child to school with their favourite book to be shared in class. We love to see what books the children are enjoying. Children are welcome to come to school dressed as their favourite character from a book. This is completely optional, do not feel any pressure to buy costumes as homemade outfits or dressing up outfits you already own, are just as good.

Friday 6th March-
Family Read-Along 2:30-3:00pm
Come and join your child in their class to read some of their favourite books.

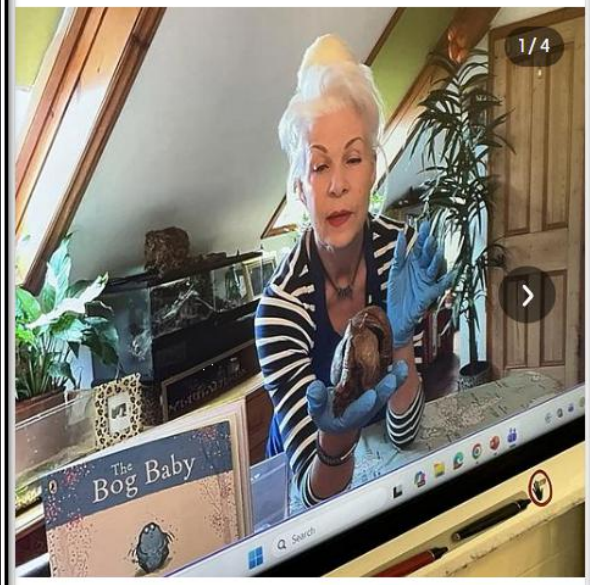

Mrs. Cutts
West Bridgford Infant School

WOW! What a fantastic day we've had celebrating World Book Day! Our children came in wearing the most amazing book character costumes (and the staff) –thank you for all the effort that went into them! The school has been buzzing with

Science Week - Year 2

A sundial is a tool that tells you the time of day using the sun. We have been observing our sundial over the course of a sunny day this week and we have seen how the shadow was cast at different times of the day.
We were learning about how the earth rotates on its axis approximately every 24 hours around the sun.
The shadow acts like a clock hand moving across the lines and we marked the ground according to the time of day.

It's Science week! We had a great afternoon working with a partner and making boats that float. We tested them with marbles to see how strong they were. Well done Collaboration Kids for being curious!

British Science Week

What a fantastic Science Week we've had across our school! Throughout the week, our children have been busy exploring, experimenting and discovering just how exciting science can be.

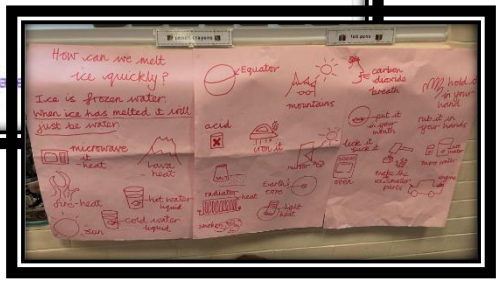

We've seen exciting experiments, spent time exploring, wondering and discovering new things and had thoughtful discussions about how science impacts our everyday lives. The children have shown fantastic curiosity and problem solving skills and have asked lots of super question!

A huge well done to all of our children for their enthusiasm and brilliant scientific thinking. Thank you as well to staff for facilitating these learning opportunities throughout the week.

Class 2 Mrs. Pavier & Miss. Pickering 2025/2026

This morning, during outdoor learning we tried to make a very dark den. W explored ways we could make it darker so we could see our torch light. We will continue to do this throughout the week so there is still time to send a torch in if you haven't already. We were all Champion Captain Curiosity today!

Friday fun at our year one disco 🪩
We had a blast!

Good afternoon,

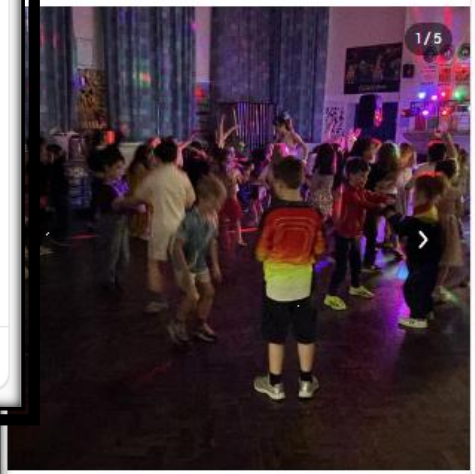

As part of our PSHE curriculum this half term, we have been discussing with the children how to be an upstander, somebody who speaks out, acts and helps if they see something unkind happening. This is opposed to a bystander, who stands by, watches and doesn't speak out. This week we have moved onto to learning about racism and how sometimes people aren't treated fairly because of the amount of melanin in their skin (the scientific reason behind having different coloured skin) The children handled this challenging lesson maturely and sensitively, which we are really proud of. They still had lots of questions following our lengthy class discussion so I thought we would send you all a message in case any questions arise at home. Please feel free to speak to us or a member of the Year 2 team if you have any questions.

Have a restful evening.

Today Year 2 celebrated Mexico Day in school and what a fantastic day it has been! MX
The children enjoyed a range of lovely learning opportunities and creative activities inspired by Mexican culture (see individual class pages for more).
A special highlight of the day was welcoming Charm, who led an energetic and engaging session teaching the children a traditional Mexican dance called the Quebradita. The children threw themselves into the experience with great enthusiasm, showing wonderful rhythm and big smiles throughout!

Check out some of our moves!
Well done Class 7, 8 and 9! 💋
