

Senses

I know we have 5 senses...

Touch - Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!

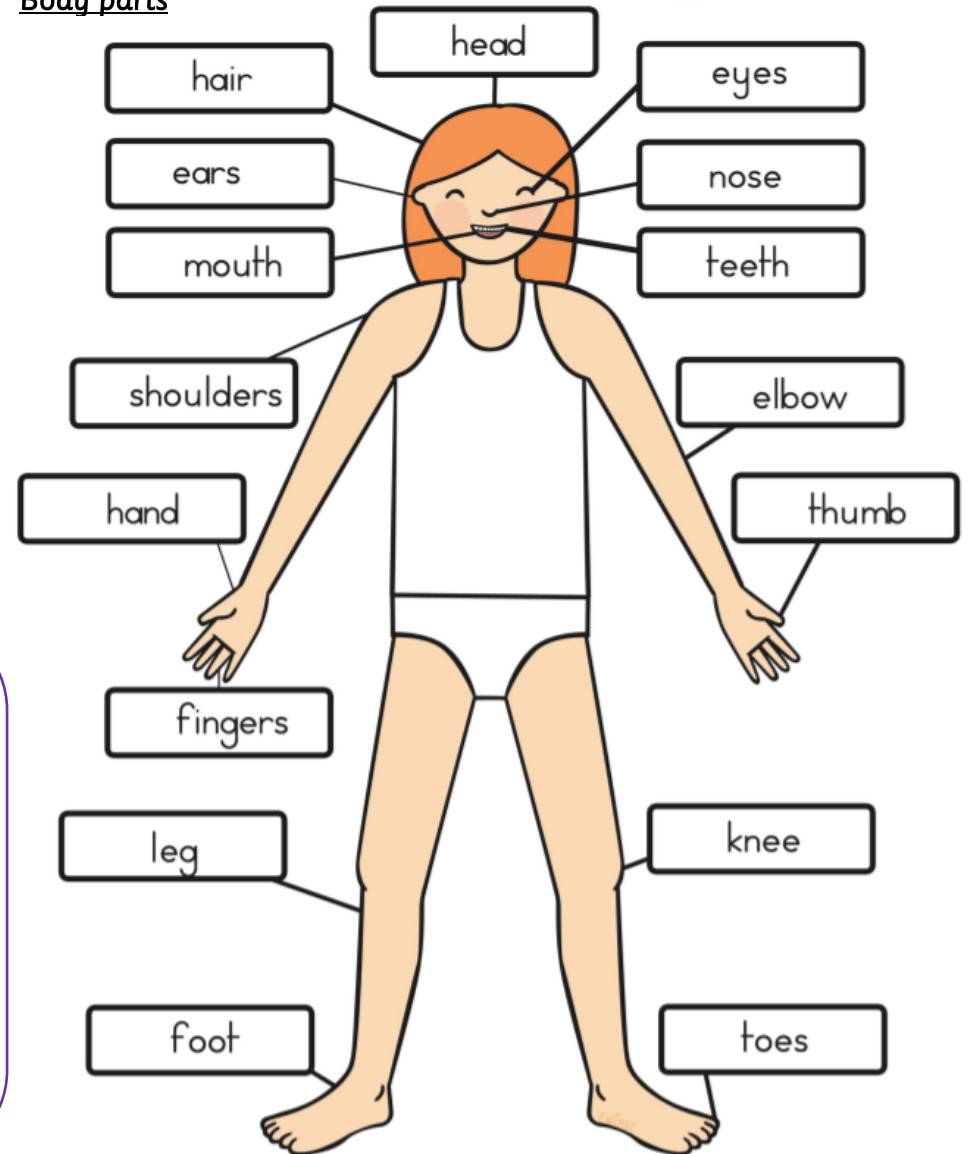

Sight - Your eyes let you see all the things around you including colour.

Hearing - Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.

Taste - Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't like.

Smell - You smell using your nose. Your nose can tell if things smell nice or not nice.

Body parts

We use our eyes to see

We use our tongue to taste

We use our nose to smell

We use our skin to touch

We use our ears to hear
